

THE LIST M TOP BUILDERS

Often working in near-impossible conditions including raging winds, white-out blizzards, subzero temperatures and wildlife on jobs sites, mountain homebuilders are intrepid professionals. They deserve a standing ovation for making the dreams of homeowners, designers and architects come true.

In our 2024 Top Mountain Builders list we recognize their accomplishments by including firms at the peak of success, recommended by homeowners, architects, designers and photographers. Homebuilders are organized by state and town, with a special designation given to companies that have appeared in the pages of *Mountain Living* during the past two years.

Big-D Signature built this home on the Snake River with views of the Grand Teton in Jackson Hole with rustic finishes to fit into the idyllic setting. The idea was to create a home that pays homage to its location.

BIG-D SIGNATURE
Jackson, WY

This Utah home is comprised of a series of linked pavilions with standing-seam metal gable roofs, a nod to the area's agrarian roots. Watts Enterprises built the home, clad in light-toned Accoya siding. A bridge crosses over a circulating stream and leads to the front door.
